

Preventive measures for working in private homes

Work safely during the coronavirus pandemic and follow the rules below. Discuss them with the owner or residents of the building where you'll be working.

Use your own transport to go to the client.

If that's not possible, keep as much distance as possible from others. Make sure the vehicle is clean and well ventilated.

Is everyone healthy?

Ask the client every morning whether anyone in the home has cold-like symptoms, a fever and/or shortness of breath. When uncertain, do not work.

Keep your distance (1.5 metres).

Ask your client and colleagues to keep their distance. Don't shake hands with anyone. In conversation, stay at least two arms lengths apart. Don't eat or drink with your client.

A healthy workplace.

Ask your client to make sure the area where you'll be working is accessible, and kept clean and well ventilated.

The following measures also still apply:

Practise good hygiene

Wash your hands often.

Cough and sneeze into your elbow.

Do you have cold-like symptoms?

Stay at home if you are sick.

Limit contact with others.

**together, we'll get
corona under control**
